

North Bingham Soil Conservation District Fact Sheet

General Information: The North Bingham Soil Conservation District was organized in 1945 and was active in promoting erosion and weed control and doing windbreak planting. Sprinkler irrigation increased dramatically in the 1960s and the District assisted in mainline development and installation. Most of the canal system farms in the District today are sprinkler irrigated.

Mission (or Function):

- Promote programs, implement plans and educate the public on conservation issues in the North Bingham Soil Conservation District.
- Make technical, financial and educational resources available and coordinate them so that they meet the needs of the local land manager with conservation of soil, water and related natural resources.

FY 2015 Accomplishments:

- Financial support for an FFA member who is working on his Star Farmer project. With District help he was able to purchase three different types of bird deterrent units to place in various locations and keep research data on the results.
- Donated funds to help finish a walking path and fencing at the North Bingham Park.
- District staff presented conservation education to students in local elementary schools.

Future Plans and Projects:

- Continue teaching students in District school about conservation.

Teaching conservation in local schools

FY 2015 District Funding:

State Funding	\$13,865
County Funding	\$2,200
Total	\$16,065
