

North Side Soil and Water Conservation District Fact Sheet

General Information: The North Side Soil and Water Conservation District was organized in 1946. They assist farmers and residents with soil and water conservation and are now branching out to address other natural resources needs of Jerome County.

Mission (or Function):

- Educate the public and assist landowners in the implementation of sound land management practices, and work towards improvements and preservation of natural resources
- With their long standing relationship with private landowners, they work effectively with federal, state, county and other agencies and organizations

FY 2015 Accomplishments:

- Sponsored a Soil Health Workshop in Oct. 2015
- Participated in local Soil Health Workshops, meetings and field tours.
- Participated in Local, State, and Regional water quality and quantity meetings.
- Continued our partnership with Valley Recreation District & Jerome County to update the Eden & Hazelton City parks & fields with modern water systems.
- Natural Resources Camp sponsor & supporter of both campers and cabin leaders.
- Envirothon sponsor and supporter.
- Published conservation-related articles in the North Side Journal.
- Created a NSSWCD web page.
- Sponsored the Jerome High School Envirothon Team.
- The District, NRCS and local partners conducted a soils judging competition in Jerome County.
