RE: Technical Assistance Request

To Whom It May Concern:

The Benewah SWCD Board of Supervisors is requesting both Comprehensive District Assistance and Specialized Technical Assistance from ISWCC for FY2021. This assistance was determined by the Board of Supervisors to be targeted for continuing efforts on the nearly complete St. Joe River Streambank Stabilization and Vegetation §319 Project, our new St. Joe River Streambank Stabilization and Revegetation §319 Application, as well as ongoing resource inventory.

This request includes $\frac{1}{4}$ of the hours of ISWCC Comprehensive Technical Assistance allotted for Brad Shelton to Division 1. Hours for Brad Shelton would be allocated thus: 15 hours for board meetings, 20 hours for continuing work on the St. Joe River 319 Project, 10 hours to assist with tree seedlings, and 96 hours for new and developing conservation projects within our District. For engineering assistance, the District is requesting 80 hours of Specialized Technical Engineering assistance from Bill Lillibridge. Approximately half of this assistance will be used on existing project implementation and half on resource inventory.

Sincerely,

Tim Schaffer
Board Chair
Benewah SWCD
