George Priority #1 BoR - Maple Creek Watershed Irrigation Efficiencies Improvement Project - Dixie Ditch Project will decommission 8,000 ft of earthen canal; bypassing it with pipeline to reduce water losses. Site evaluation, survey, cultural resources, reporting. Construction is to begin September 2020.		75	16			
George Priority #2 Stream Flow Measurements Our stream flow measurements offers a unique community service to the water districts and irrigation companies by annually rating stream and canal flow. This rating can occur during high, medium, and low flows. It cannot be accomplished by one person. Safety becomes a factor. After data has been collected, engineering is needed to analyze and correlate to the individual gauges.		25	12
