Idaho Soil and Water Conservation Commission
Attention: Delwyne Trefz
322 E Front Street Suite 560
Boise, Idaho 83702

Dear Delwyne:

The Wood River Soil and Water Conservation District (WRSWCD) would like to request technical assistance from the SWC in the amount of 24 hours. The project is called the "Neher Park Project" it is roughly 1-mile East of Shoshone on the Little Wood River. At this time, we are working with Lincoln County, Recreation board and other agency folks to help create this park. It would be an area for fishing, native and pollinator educational pathways and activities for youth and community of Lincoln County.

The WRSWCD was awarded money from the Courts many years ago due to the Avonmore spill, that killed many fish in the Little Wood River. The District has found it extremely hard to do many improvements because of the unique landscape and special criteria we have to follow. The District sees this project as a possibility to utilize these monies, however we want everything to meet specifications. We are asking for time to come out and give us input to help plan & design such a project.

We would also hope that you would allow TA time in the amount of 8 hours for the soil sampling that will take place this year.

Thank you for your consideration.

Sincerely,

Carl Pendleton
Chairman, Wood River SWCD
