SWCD Board Meetings: 1st Wednesday of month at 7:00 pm

Mission Statement

To support high quality and effective projects that engage private landowners in the conservation and enhancement of wildlife and natural resources on their lands. We place high priority on innovative concepts that integrate conservation practices in ongoing agricultural and ranching operations.

Top 6 Natural Resource Concerns

- | | |
|----------------------------|------------------------|
| 1. Water Resources | 4. Land Resources |
| 2. Information & Education | 5. District Operations |
| 3. Urban | 6. Energy |

Ongoing Projects

- Water Measurements and Data Collection

With the combined collaboration of Franklin SWCD, Department of Environmental Quality, and the Idaho Soil & Water Conservation Commission we were able to utilize water measuring to not only help landowners and canal companies gather pertinent information, but we also take the opportunity to teach students the valuable lesson pertaining to natural resource management.

- Educational Programs

Due to the ongoing Covid-19 pandemic we were sadly still unable to participate in our yearly educational programs with the exception of a 3 week ecology course with Franklin County High School.

- County Planning and Zoning Assistance

Provide recommendations to the P&Z to protect the natural resources from impacts associated with proposed subdivisions.

- Irrigation

Continue to coordinate the Franklin County Irrigation Reservoir Alliance entailing multiple community members, entities, and organizations.

- Bureau of Reclamation (BoR) Grant

Dixie Ditch Project – Ditch to Pipe project to increase irrigation water savings.

Franklin Soil & Water Conservation District continues to strive to help our cooperators and partners make our community more sustainable.
