Top 5 Priorities

1. Maintain and Enhance a Sustainable District Infrastructure
2. Natural Resource Hazard Mitigation
3. Improve, Protect, and Enhance Stream Corridors and Fisheries Habitat
4. Community Education
5. Maintain, Restore, and Enhance Productive Capacity of Working Lands

Recent Projects

- Tom Beall Road Shoulders -The purpose of this project is to repair the channel function to allow for adequate passage of spring flows and to protect the streambank from additional erosion in future high flow events. Project funds were used for the installation of bank stabilization measures along 100 feet of eroding stream channel.
