• State Commission Match-	\$ 14,500.00
• County-	<u>\$ 14,000.00</u>
• Sub-Total Agency Revenue	\$ 47,011.00
• Sub-Total Match Revenue	\$ 25,000.00
• Grand Total Revenue	\$ 72,011.00

Recent Projects

In City Limits Landowner Wall Breach

Project Along Hwy 95

Monroe Creek Bank Stabilization Project

The Weiser River Soil Conservation District has been working with landowners, Idaho Soil and Water Commission, County and City of Weiser and NRCS to address the erosion problem along Monroe Creek. It began with a landowner whose home and crop fields were being threatened by severe erosion, along with potential damage to Hwy 95. We applied for a 319 grant through IDEQ to address the problems of this 25-mile long stream.

We were awarded the funds in 2020 to begin work on the project. We have worked alongside ISWCC Engineer Bill Lillibridge to armor the streambank and completed some work in 2020. In 2021 the bank along the project area was reshaped and over 220 willows were planted to hold the soil in place. In 2022 we added 5 more landowners with reshaping, adding rock and large number of willows. Project completion set for 2023.

Educational Programs

Annual 6th Grade Field Day with over 220 students, teachers and volunteers.

- Sponsor annual poster contest for 6th grade students.
- Hold annual 6th grade field day with over 220 students, teachers and volunteers.
- Display at IASCD Conference and Meetings.
- Tour of District Projects.
- Sponsor teams to Envirothon.
- Online Newsletter.

6th Grade Field Day with over 225 volunteers, students and teachers

Future Projects

The District has been strategically creating projects that would address the total maximum daily load requirements placed on rivers and streams within Washington County. The three TMDL streams are Weiser River, Snake River/Hells Canyon and Brownlee.

The Weiser River SCD will continue to work with landowners, Water Districts, IDWR, NRCS, Idaho SWCC and our local City and County.

- The District will continue the streambank restoration projects along the Weiser River with District Partners.
- The Weiser Irrigation District has approached the District to help with funding to repair the damage done to the Galloway Dam Reservoir spillway wall. We currently have plans to submit an Aging Infrastructure Grant for the Galloway.

In the past 10 years the projects implemented have had a reduction of; 49.53 tons of nitrogen/year, 16.57 tons of phosphorus/year and 5,854 tons of sediment/year flowing into TMDL listed streams. Once we complete the Monroe Creek Project that will greatly increase.
