

Franklin Soil and Water Conservation District

FY2024 (7/01/2023-6/30/2024)

Projects

Water Measurements and Data Collection

With the combined collaboration of Franklin SWCD, Department of Environmental Quality, and the Idaho Soil & Water Conservation Commission we were able to utilize water measuring to not only help landowners and canal companies gather pertinent information, but we also take the opportunity to teach students the valuable lesson pertaining to natural resource management.

Educational Programs

Conducted a 3 week Ecology Course with the Franklin County High School, in which we take students into the field every day to share with them multiple areas of conservation and real world experiences.

Bureau of Reclamation (BoR) Grant

WQPA

Finishing Mussler Project – Streambank restoration to protect farmland and improve water quality.

Finishing Bodily Project - Water quantity and erosion control.

Finishing Twin Lakes Project – Water quantity.

Mission Statement

To support high quality and effective projects that engage private landowners in the conservation and enhancement of wildlife and natural resources on their lands. We place high priority on innovative concepts that integrate conservation practices in ongoing agricultural and ranching operations.

Top 6 Natural Resource Concerns

- | | |
|----------------------------|-------------------|
| 1. District Operations | 4. Land Resources |
| 2. Water Resources | 5. Energy |
| 3. Information & Education | 6. Urban |

The Franklin Soil & Water Conservation District strives to help our cooperators and partners make our community more sustainable.
