4. Education — Adult
5. District Relationships & Operations

### 2025 Revenue

State Grants and Services: \$97,000

County General Services: \$0

Total \$97,000

### North Side Pump Co. WQPA

The North Side SWCD sponsored a State Water Quality Program for Agriculture (WQPA) project with the North Side Pump Co. to replace unlined laterals and pumps installed in the 1920s.

The District used its own dollars to provide additional funding for bank stabilization at the canal company's Red Bridge regulating reservoir.

## **Educational Efforts**

- Sponsored cooperator educational efforts such as the Magic Valley Soil Health Forum,
- Sponsored a Local Working Group meetings to set natural resource priorities.
- Sponsored a speech contest for high school students.
- Participated in the Jerome County Fair in partnership with the USDA Farm Service Agency

- Co-sponsored the annual Legislative Lunch in December. This is a great opportunity to meet our legislators and county commissioners to talk over issues facing our cooperators and citizens at large.

## **3rd Grade Trees**

North Side SWCD provides a tree seedling to every third grader in Jerome County. That was over 700 trees in 2025.

## **Future Projects Irrigation Efficiency**

North Side SWCD is working with Soiltech, a local company, to develop an irrigation efficiency project. Soiltech manufactures probes that can monitor parameters such as soil moisture, humidity and temperature to help cooperators better schedule irrigation applications. The program will likely involve cost-sharing with growers who utilize groundwater to offset the purchase cost of the sensors. As demand for water increases across southern Idaho, irrigators must become more efficient.
