

PORTNEUF SOIL & WATER CONSERVATION DISTRICT

*Conserving Natural
Resources for our Future*

natural resources management that
conserves and improves air, soil, and water
quality, and fish and wildlife habitat.

Conservation Projects

Mud Springs & Dead Horse Project

This project is completed with 100 acres of
brush treatment, 10 acres of brush removal,
6 miles of pipe connecting 11 watering
systems. Overall, this project will increase
water in the area and allow land managers
to control grazing, giving sensitive areas
time to heal.

Dempsey Creek Improvement Project

This project is in progress and will replace a
culvert that failed during a high-water year.
The culvert had backed up and diverted
around and across open farmland. This
project will prevent flooding and protect soil
resources.

Swan Lake Creek Project

This project will install a watering system in
the Cottonwood Valley area, to project a

Conservation Programs

Owl Box Program

Barn Owls offer an effective form of natural pest control that often provides better results than conventional trapping or poisons. The use of Barn Owls for pest control is also eco-friendly and requires little to no maintenance. The Army Corps of Engineers estimates that it takes 3,000 gophers a year, plus mice and voles, to sustain a pair of owls and their young. To date the PSWCD has sold 44 Owl Boxes.

Conservation Loan Program

The PSWCD offers conservation loans up to \$10,000 to landowners in Bannock County. Loans are offered at low interest rates and are a perfect match to be used with NRCS Programs.

Education & Outreach

The PSWCD sponsored the State Land & Soil Competition, Two Pocatello High School Envirothon Teams, the State Forestry Competition, and the Portneuf Valley Environmental Fair. The PSWCD performed outreach and education at Portneuf Environmental Fair and published an annual newsletter that reach 1900 people and maintains both Facebook and Website. The PSWCD hosted two free Living on the Land workshops and was on the Portneuf Environmental Fair Committee.
